Fadhil Mauladhani

Full Stack Developer at PT AMA SALAM INDONESIA
West Java, Indonesia

Summary

I'm a web developer experienced in building web-based educational and sharia-insurance solutions. I am actively seeking opportunities to contribute my skills and expertise.
- Excels at using Laravel and NestJS to build websites or back-end API.
- Professional working English proficiency.
- Efficient use of Artificial Intelligence tools for exponential productivity.
- Experienced in building web-based educational and sharia insurance platforms.
- Proficient in code optimization and best practices.
- Comprehensive code and feature documentation.
- Highly adaptable to any technology stack that is demanded.
- Artificial Intelligence and Machine Learning enthusiast.

I possess a comprehensive knowledge of computer and software technology, coupled with a proven ability to develop innovative programs that drive workplace efficiency. With a keen analytical mindset and strong problem-solving skills, I excel at making sound decisions even in challenging and unexpected situations. I am eager to engage with cutting-edge technologies and leverage them to propel organizational growth. By joining an organization that fosters a dynamic learning environment, I aim to further enhance my proficiency and stay at the forefront of emerging technologies.

Please consider this profile as a representation of my abilities and aspirations. I am eager to collaborate with forward-thinking teams and make a meaningful impact in a fast-paced and innovative setting.

Experience

PT AMA SALAM INDONESIA

2 years 4 months

Full Stack Developer

October 2024 - Present (2 years 1 month)

Bogor, West Java, Indonesia

Software Engineer

July 2024 - October 2024 (4 months)

Kota Bogor, West Java, Indonesia

- Role in refactoring an existing codebase from Express.js to Nest.js, and assisted in migrating the architecture to a microservices-based infrastructure.
- Contributed to building the back-end system for a Sharia-compliant travel insurance platform, utilizing Nest.js to ensure scalability and performance.

Daraya Software Solutions

Software Engineer

June 2024 - July 2024 (2 months)

Indonesia

Contribution to Machine Learning projects:

- Mangosteen Ripeness Classification using Tensorflow and YOLOv8.
- Face Skin Disease Classification using Tensorflow and EfficientnetB3 pre-trained model.
- Face Recognition for Smart Lock device and integration with Telegram API detection notice using OpenCV.

ByteLogic Inovation

Software Engineer

December 2023 - June 2024 (7 months)

Indonesia

- Contribution to Fitness Trainer Academy E-Learning platform project using Laravel. Transferring a PDF E-Book content into a web view with input forms and review notes.

Kejar.id

3 years 6 months

Back End Developer

June 2021 - June 2024 (3 years 1 month)

Bogor, West Java, Indonesia

▪ Maintain and develop the back-end system using Laravel and PostgreSQL for Kejar.id to serve affordable and reliable school management system that serves ever-changing needs for educators and learners in Indonesia.
▪ Collaborated with cross-functional teams including Front-end, UI/UX and Product Manager in Agile software development life-cycle.
▪ Role in research, development and implementation of complex features, i.e coordinate-based attendance system, integration of Firebase notification, school reportbook system with chart-based analytic, and event-based queue jobs for heavy tasks such as school ledger report.
▪ Role in code reviewing, refactoring, optimization and ensuring best practices in the development pipeline using GitLab.
▪ Role in server maintenance as load tester using Locust.py to ensure performance and availability
of our service while also monitoring our server using OneRelic.
▪ Document writing for code, research, and new features in English using Notion

Intern Web Developer
January 2021 - June 2021 (6 months)
Bogor, West Java, Indonesia

I have my internship as a vocational high school student at Kejar.id, a web-based educational technology platform, I had the opportunity to work alongside a talented team of web developers, gaining valuable hands-on experience in web development and the EdTech sector.

-Collaborated with the development team to design and implement a web-based educational platform, enhancing the learning experience for schools, students and educators.
-Contributed to the creation of responsive and mobile-friendly web designs.
-Gained proficiency in web development languages including PHP, JavaScript and especially Laravel framework, and learned the importance of adhering to best practices.
